USB Data Cable Series

USB Data Cable Product Series

If there are any changes to the specifications, no separate notice will be given. Specifications subject to change without notice

Product Overview ·Product Overview

Model	Specifications/ Interfaces	Support Power	Propagation velocity
WS-001	Type C to Type C Aluminum-shelled woven wire with light	60W / 100W / 240W	USB2.0 / USB3.0 / USB3.2
WS-001B	Type A to Type C Aluminum-shelled woven thread with light	5V/3A 15W	USB2.0
WS-002	Type C to Type C Injection-molded version PVC	60W	USB2.0
WS-002B	USB-A to Type-C injection-molded version PVC	5V/3A 15W	USB2.0
WS-002C	USB-A to Micro injection-molded version PVC	5V/2A 10W	USB2.0
WS-003	Type C to Type C Aluminum-shelled braided wire	60W / 100W / 240W	USB2.0
WS-003B	USB-A to Type-C aluminum case woven cable	5V/3A 15W	USB2.0
WS-004	Type C to Type C Octagonal aluminum-shelled braided wire	60W / 100W / 240W	USB2.0
WS-004B	USB-A to Type-C octagonal aluminum housing woven cable	5V/3A 15W	USB2.0
WS-005	Type C to Type C Aluminum-shelled braided wire	60W / 100W / 240W	USB2.0
WS-006	USB-A to Type-C(USB 3.0 adapter with flex cable VR)	5V/3A 15W	USB3.0/USB3.1
WS-007	Type-C to Type-C USB 3.2 High-Speed Cable	60W / 100W / 240W	USB3.2
WS-008	Type C to Type C Roasted lacquer ABS Liquid silicone cable	5V/2.4A 12W	USB2.0
WS-009	Type C to Type C Aluminum-shelled braided wire	60W / 100W / 240W	USB2.0
WS-009B	USB-A to Type-C aluminum case woven cable	5V/3A 15W	USB2.0
WS-010	Type-C to Type-C port with illuminated indicator, featuring a zinc alloy housing and silicone cable	60W / 100W / 240W	USB2.0
WS-011	Type C to Type C fully injection-molded bright-edged liquid silicone rubber	60W	USB2.0
WS-012	Type C to Type C Liquid Silicone Cable	60W	USB2.0
WS-013	Type C to Type C transparent ice crystal woven thread	60W	USB2.0
WS-014	Type C to Type C Gradual Ice Crystal Silicone/Graft Wire	60W	USB2.0
WS-015	4 Combination 1 Zinc Alloy Woven Flat Wire	60W	USB2.0

WS 001 Type C to Type C Aluminum-shelled woven wire with light**WS-001****Type C to Type C Aluminum-shelled woven wire with light**

Supported Power 60W / 100W / 240W

Transmission speed USB 2.0 /
USB 3.0 / USB 3.2**WS 001B** USB-A to Type-C aluminum case with light-emitting woven wire**WS-001B****USB-A to Type-C aluminum case with light-emitting woven wire**

Supported Power 5V 3A 15W

Transmission speed USB 2.0

WS 002 Type C to Type C Injection-molded version**WS-002****Type C to Type C Injection-molded version PVC**

Supported Power 60 W

Transmission speed USB 2.0

WS 002B USB-A to Type-C Injection-molded version**WS-002B****USB-A to Type-C injection-molded version PVC**

Supported Power 5V 3A 15W

Transmission speed USB 2.0

WS 002C USB-A to Micro Injection-molded version**WS-002C****USB-A to Micro injection-molded version PVC**

Supported Power 5V 2A 10W

Transmission speed USB 2.0

WS 003 Type C to Type C Aluminum-shelled braided wire**WS-003****Type C to Type C Aluminum-shelled braided wire**

Supported Power 60W/100W/240W

Transmission speed USB 2.0

WS 003B USB-A to Type-C aluminum case with woven wire**WS-003B****USB-A to Type-C aluminum case woven cable**

Supported Power 5V/3A 15W

Transmission speed USB 2.0

WS 004 Type C to Type C Octagonal aluminum-shelled braided wire**WS-004****Type C to Type C Octagonal aluminum-shelled braided wire**

Supported Power 60W/100W/240W

Transmission speed USB 2.0

WS 004B USB-A to Type-C octagonal aluminum housing woven wire**WS-004B****USB-A to Type-C octagonal aluminum housing woven cable**

Supported Power 5 V/3 A 15 W

Transmission speed USB 2.0

WS 005 Type C to Type C Aluminum-shelled woven wire**WS-005****Type C to Type C Aluminum-shelled braided wire**

Supported Power 60W / 100W / 240W

Transmission speed USB 2.0

WS 006 USB-A to Type-C(USB 3.0 adapter with flex cable VR connector)**WS-006****USB-A to Type-C adapter with aluminum housing VR cable**

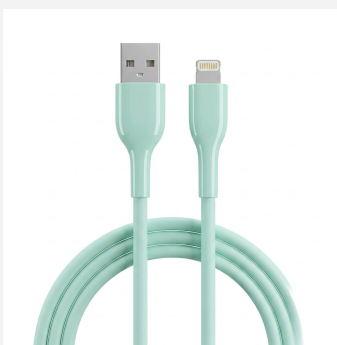

Supported Power 5V 3A 15W

Transmission speed USB 3.0 / USB 3.1

WS 007 Type-C to Type-C USB 3.2 High-Speed Cable Aluminum Shell TPE**WS-007****Type-C to Type-C USB 3.2 high-speed cable with aluminum housing and TPE coating**

Supported Power 60W / 100W / 240W

Transmission speed USB 3.2

WS 008 Type C to Type C baked enamel ABS liquid silicone wire**WS-008****Type C to Type C baked enamel ABS liquid silicone wire**

Supported Power 5V 2.4A 12W

Transmission speed USB 2.0

WS 009 Type C to Type C Aluminum-shelled braided wire**WS-009****Type C to Type C Aluminum-shelled braided wire**

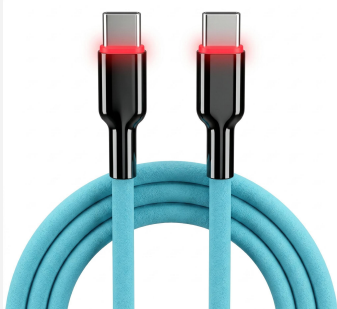

Supported Power 60W / 100W / 240W

Transmission speed USB 2.0

WS 009B USB-A to Type-C aluminum-shelled woven wire**WS-009B****USB-A to Type-C aluminum-wrapped braided cable (white)**

Supported Power 5 V/3 A 15 W

Transmission speed USB 2.0

WS 010 Type-C to Type-C port with illuminated indicator and zinc-alloy silicone cable**WS-010**

Type-C to Type-C port with illuminated indicator, featuring a zinc alloy housing and silicone cable

Supported Power 60W / 100W / 240W

Transmission speed USB 2.0

WS 011 Type C to Type C Full Injection-Molded Shiny Edge Liquid Silicone Cable**WS-011**

Type C to Type C fully injection-molded bright-edged liquid silicone wire

Supported Power 60 W

Transmission speed USB 2.0

WS 012 Type C to Type C Full Injection-Molded Liquid Silicone Cable**WS-012**

Type C to Type C Liquid Silicone Cable

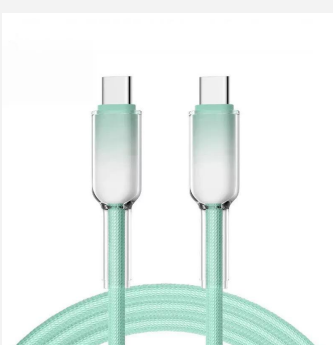

Supported Power 60 W

Transmission speed USB 2.0

WS 013 Type C to Type C Transparent ice-crystal woven thread**WS-013****Type C to Type C transparent ice crystal woven thread**

Supported Power 60 W

Transmission speed USB 2.0

WS 014 Type C to Type C Gradual transition ice crystal silicone rubber/woven thread**WS-014****Type C to Type C Gradual Ice Crystal Silicone/Graft Wire**

Supported Power 60 W

Transmission speed USB 2.0

WS 015 4 alloy with 1 zinc content, woven flat wire**WS-015****4 Combination 1 Zinc Alloy Woven Flat Wire**

Supported Power 60 W

Transmission speed USB 2.0
